About Me

B.Tech Information Technology student with internship experience in software development and game programming. Skilled in Python, Java, SQL, FastAPI, and machine learning with hands-on experience building AI-driven and full-stack applications. Passionate about data engineering, backend development, and solving real-world problems through AI.

Experience

XR Simulation Developer Intern Dec 2024 – May 2025
FireBird VR Remote

- Engineered an interactive AR-based football application leveraging Unity Engine and C# script logic.
- Developed robust gesture control frameworks, comprehensive gameplay physics, scoring arrays, and states.
- Fine-tuned system graphics workflows, significantly improving rendering latency and user interaction flows.

Game Developer Intern Feb 2026 – April 2026
Silo Entertainment LLP Mumbai, India

- Formulated end-to-end NPC state behaviors, interactive world logic blocks, and strict performance debugging profiles.
- Streamlined production testing workflows and asset integration routines in coordination with cross-functional core teams.

Projects

Automated Bug Triage System Python, TensorFlow, FastAPI, React

- Standardized an intelligent ML-driven request router applying Artificial Neural Networks (ANN) and Bayesian models.
- Automated the parsing and dispatch of incoming issue logs across 31 individual engineering developer sectors.

Retail Store Analysis System React, Node.js, Python, JavaScript

- Architected a full-stack corporate analytical portal equipped with data visual panels and pricing intelligence engines.
- Built predictive regression modules computing prospective product turnover dynamics, bound seamlessly to a React view.

Omni-STEM: AI Visual Learning Assistant (In progress) Python, FastAPI, Streamlit, VLMs, FAISS

- Developing an AI assistant to explain STEM diagrams for visually impaired learners.
- Integrating VLMs, RAG (FAISS), and speech technologies for interactive learning.

Technical Skills

- Languages:** Python, C, Java
- Machine Learning & Data:** NumPy, Pandas, Scikit-learn, TensorFlow, Jupyter
- Databases & Tools:** MySQL, MongoDB Atlas, NoSQL.
- Web Development:** HTML, CSS, JavaScript, React, Node.js, FastAPI
- Development Tools:** Git, GitHub, VS Code, Jupyter Notebook, AWS Basics, Unity, AI Coding Assistants (GitHub Copilot, Cursor AI, Claude Code)

Education

B.Tech in Information Technology Expected Graduation: 2027
Vidyalankar Institute of Technology, Wadala, Mumbai CGPA: 9.01 / 10

HSC (Science) Completion: 2023
R. K. Talreja Junior College, Ulhasnagar Percentage: 70.33%

SSC Completion: 2021
I. E. S. Katrap Vidyalaya, Badlapur Percentage: 89.80%

Certifications

- Machine Learning with Python** – L&T skill trainers academy (2025)
- Unity Junior Programmer** – Unity Technologies (2025)
- Java Data Structures & Algorithms** – Scaler Topics (2024)
- SQL & Python (Intermediate)** – Sololearn (2025)
- Data Mining & Jupyter** – Simplilearn / 365 Data Science (2025)
